

Promotion combinations: Black, move 47

Promotion combinations

Black to move

Previous move: 47.g4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

47...Bc4 48. Kg5 c1=Q+

47...Bc4 The bishop moves from d3 to c4. Recorded reply: **48.Kg5**.

48...c1=Q+ Check restricts White to 6 legal replies here. The pawn becomes a queen.

At the end, nominal material is White 9 / Black 13 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +8. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +8:** the balance goes from -4 to +4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Always inspect stalemate and underpromotion resources. A queen is usually strongest, but the exact position determines the choice.

WHAT THIS POSITION TEACHES

An advanced pawn can turn a tactical sequence into a new queen or another useful piece. Promotion may occur with capture or check, and the choice of piece can change the outcome.

HOW TO LOOK

Calculate the pawn's route, the safety of the promotion square, and whether the new piece can survive or give a decisive check.

The defending king is on f4. Geometrically undefended: rook on c8. Check for tactical protection.
