

Promotion combinations: White, move 38

Promotion combinations

White to move

Previous move: 37...Bg2. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

38. dxe6 Bxf1 39. e7 Bxc4 40. e8=Q+

38.dxe6 The pawn captures the rook on e6. Recorded reply: **38...Bxf1**.

39.e7 The pawn moves from e6 to e7. Recorded reply: **39...Bxc4**.

40.e8=Q+ Check restricts Black to 2 legal replies here. The pawn becomes a queen.

At the end, nominal material is White 18 / Black 13 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +7. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +7: the balance goes from -2 to +5. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Always inspect stalemate and underpromotion resources. A queen is usually strongest, but the exact position determines the choice.

WHAT THIS POSITION TEACHES

An advanced pawn can turn a tactical sequence into a new queen or another useful piece. Promotion may occur with capture or check, and the choice of piece can change the outcome.

HOW TO LOOK

Calculate the pawn's route, the safety of the promotion square, and whether the new piece can survive or give a decisive check.

The defending king is on h8. Geometrically undefended: bishop on g2. Check for tactical protection.
