

Advanced-pawn tactics: Black, move 31

Advanced-pawn tactics

Black to move

Previous move: 31.Be4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

31...Bxe4 32. dxe4 d3 33. Rb1 dxc2

31...Bxe4 The bishop captures the bishop on e4. Recorded reply: **32.dxe4**.

32...d3 The pawn moves from d4 to d3. The changed line means the bishop on e5 attacks the rook on a1. Recorded reply: **33.Rb1**.

33...dxc2 The pawn captures the knight on c2.

At the end, nominal material is White 11 / Black 13 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +3: the balance goes from -1 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A far-advanced pawn may be weak if unsupported. Check whether the opponent can capture it with tempo or blockade it permanently.

WHAT THIS POSITION TEACHES

A pawn near promotion forces the defender to respect urgent threats. Its strength can create forks, deflections, or mating ideas even when it never actually promotes.

HOW TO LOOK

Count the remaining pushes and identify the blocker. Look for forcing moves that remove or distract that blocker.

The defending king is on g1. Geometrically undefended: knight on c2. Check for tactical protection.
