

Advanced-pawn tactics: White, move 19

Advanced-pawn tactics

White to move

Previous move: 18...Nxh2. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

19. f6 g6 20. fxe7

19.f6 The pawn moves from f5 to f6. Recorded reply: **19...g6**.

20.fxe7 The pawn captures the queen on e7.

At the end, nominal material is White 29 / Black 23 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +9. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +9: the balance goes from -3 to +6. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A far-advanced pawn may be weak if unsupported. Check whether the opponent can capture it with tempo or blockade it permanently.

WHAT THIS POSITION TEACHES

A pawn near promotion forces the defender to respect urgent threats. Its strength can create forks, deflections, or mating ideas even when it never actually promotes.

HOW TO LOOK

Count the remaining pushes and identify the blocker. Look for forcing moves that remove or distract that blocker.

The defending king is on g8. Geometrically undefended: knight on h2. Check for tactical protection.
