

Advanced-pawn tactics: Black, move 36

Advanced-pawn tactics

Black to move

Previous move: 36.Kf3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

36...d2 37. Bxd2 Bxd2 38. b6 Bxe1

36...d2 The pawn moves from d3 to d2. Recorded reply: **37.Bxd2**.

37...Bxd2 The bishop captures the bishop on d2. Recorded reply: **38.b6**.

38...Bxe1 The bishop captures the rook on e1.

At the end, nominal material is White 4 / Black 7 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +7. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +7: the balance goes from -4 to +3. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A far-advanced pawn may be weak if unsupported. Check whether the opponent can capture it with tempo or blockade it permanently.

WHAT THIS POSITION TEACHES

A pawn near promotion forces the defender to respect urgent threats. Its strength can create forks, deflections, or mating ideas even when it never actually promotes.

HOW TO LOOK

Count the remaining pushes and identify the blocker. Look for forcing moves that remove or distract that blocker.

The defending king is on f3. Geometrically undefended: bishop on b4. Check for tactical protection.
