

Advanced-pawn tactics: White, move 58

Advanced-pawn tactics

White to move

Previous move: 57...Rd1. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

58. g7 Rg1 59. Bg3

58.g7 The pawn moves from g6 to g7. Recorded reply: **58...Rg1**.

59.Bg3 The bishop moves from d6 to g3.

At the end, nominal material is White 5 / Black 7 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +0. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +0: the balance goes from -2 to -2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A far-advanced pawn may be weak if unsupported. Check whether the opponent can capture it with tempo or blockade it permanently.

WHAT THIS POSITION TEACHES

A pawn near promotion forces the defender to respect urgent threats. Its strength can create forks, deflections, or mating ideas even when it never actually promotes.

HOW TO LOOK

Count the remaining pushes and identify the blocker. Look for forcing moves that remove or distract that blocker.

The defending king is on c8. Geometrically undefended: rook on d1. Check for tactical protection.
