

Advanced-pawn tactics: White, move 44

Advanced-pawn tactics

White to move

Previous move: 43...Kc6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

44. Rb8 Re2 45. a7

44.Rb8 The rook moves from b7 to b8. Recorded reply: **44...Re2**.

45.a7 The pawn moves from a6 to a7.

At the end, nominal material is White 7 / Black 12 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +0. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +0: the balance goes from -5 to -5. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A far-advanced pawn may be weak if unsupported. Check whether the opponent can capture it with tempo or blockade it permanently.

WHAT THIS POSITION TEACHES

A pawn near promotion forces the defender to respect urgent threats. Its strength can create forks, deflections, or mating ideas even when it never actually promotes.

HOW TO LOOK

Count the remaining pushes and identify the blocker. Look for forcing moves that remove or distract that blocker.

The defending king is on c6. Look for a defender that can be displaced or overloaded.
