

Rook-ending tactics: Black, move 36

Rook-ending tactics

Black to move

Previous move: 36.Rf7+. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

36...Kxe6 37. Rxc6+ Rxc6

36...Kxe6 The king captures the pawn on e6. The changed line means the rook on c7 attacks the rook on f7. Recorded reply: **37.Rxc6+**.

37...Rxc6 The rook captures the rook on c6.

At the end, nominal material is White 8 / Black 9 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +1. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +1:** the balance goes from +0 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A routine rook placement can miss a skewer or promotion with check. Let concrete tactics override a guideline when they conflict.

WHAT THIS POSITION TEACHES

Rook endings combine pawn races with checks, cutoffs, and promotion tactics. Activity is vital, but the exact move order often decides whether a pawn can advance safely.

HOW TO LOOK

Check the kings' exposure, the rooks' checking distance, and the passed pawns. Calculate forcing checks before applying a general rook-ending rule.

The defending king is on g1. Geometrically undefended: rook on a6. Check for tactical protection.
