

Rook-ending tactics: White, move 54

Rook-ending tactics

White to move

Previous move: 53...bxc3. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

54. Rc8+ Kd7 55. Rxc4 dxc4+ 56. Kxc3

54.Rc8+ Check restricts Black to 4 legal replies here. Recorded reply: **54...Kd7**.

55.Rxc4 The rook captures the rook on c4. Recorded reply: **55...dxc4+**.

56.Kxc3 The king captures the pawn on c3.

At the end, nominal material is White 4 / Black 4 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +1. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +1: the balance goes from -1 to +0. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A routine rook placement can miss a skewer or promotion with check. Let concrete tactics override a guideline when they conflict.

WHAT THIS POSITION TEACHES

Rook endings combine pawn races with checks, cutoffs, and promotion tactics. Activity is vital, but the exact move order often decides whether a pawn can advance safely.

HOW TO LOOK

Check the kings' exposure, the rooks' checking distance, and the passed pawns. Calculate forcing checks before applying a general rook-ending rule.

The defending king is on c6. Look for a defender that can be displaced or overloaded.
