

Rook-ending tactics: White, move 41

Rook-ending tactics

White to move

Previous move: 40...Rb6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

41. f5 Rb5+ 42. Kxe6

41.f5 The pawn moves from f4 to f5. Recorded reply: **41...Rb5+**.

42.Kxe6 The king captures the pawn on e6.

At the end, nominal material is White 7 / Black 6 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +1. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +1: the balance goes from +0 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A routine rook placement can miss a skewer or promotion with check. Let concrete tactics override a guideline when they conflict.

WHAT THIS POSITION TEACHES

Rook endings combine pawn races with checks, cutoffs, and promotion tactics. Activity is vital, but the exact move order often decides whether a pawn can advance safely.

HOW TO LOOK

Check the kings' exposure, the rooks' checking distance, and the passed pawns. Calculate forcing checks before applying a general rook-ending rule.

The defending king is on f3. Geometrically undefended: rook on b6. Check for tactical protection.
