

Bishop-ending decisions: Black, move 48

Bishop-ending decisions

Black to move

Previous move: 48.Bg4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

48...Bxf5+ 49. Bxf5 e2 50. h5 e1=Q

48...Bxf5+ Check restricts White to 5 legal replies here. From f5 it attacks king on g6 and bishop on g4. Recorded reply: **49.Bxf5**.

49...e2 The pawn moves from e3 to e2. Recorded reply: **50.h5**.

50...e1=Q The pawn moves from e2 to e1. The pawn becomes a queen.

At the end, nominal material is White 6 / Black 10 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +6. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +6: the balance goes from -2 to +4. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Same-colored and opposite-colored bishop endings have different tendencies, but neither label replaces calculation of the actual pawn races.

WHAT THIS POSITION TEACHES

A bishop ending depends on diagonal access, pawn color, king activity, and promotion squares. Tactics can arise when a bishop must perform two defensive jobs.

HOW TO LOOK

Trace the bishop's line to each target and identify pawns that can break its coverage or force it to move.

The defending king is on g6. Absolute pin: pawn on f5.
