

Bishop-ending decisions: Black, move 50

Bishop-ending decisions

Black to move

Previous move: 50.Kxh4. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

50...Kd2 51. Kg4 e2 52. Bxe2 Kxe2

50...Kd2 The king moves from c3 to d2. Recorded reply: **51.Kg4**.

51...e2 The pawn moves from e3 to e2. Recorded reply: **52.Bxe2**.

52...Kxe2 The king captures the bishop on e2.

At the end, nominal material is White 4 / Black 5 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +2:** the balance goes from -1 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Same-colored and opposite-colored bishop endings have different tendencies, but neither label replaces calculation of the actual pawn races.

WHAT THIS POSITION TEACHES

A bishop ending depends on diagonal access, pawn color, king activity, and promotion squares. Tactics can arise when a bishop must perform two defensive jobs.

HOW TO LOOK

Trace the bishop's line to each target and identify pawns that can break its coverage or force it to move.

The defending king is on h4. Look for a defender that can be displaced or overloaded.
