

Bishop-ending decisions: White, move 50

Bishop-ending decisions

White to move

Previous move: 49...Ke5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

50. Kb7 Kd6 51. Kxa7 Kc7 52. b3 h6 53. f3

50.Kb7 The king moves from c6 to b7. Recorded reply: **50...Kd6**.

51.Kxa7 The king captures the bishop on a7. Recorded reply: **51...Kc7**.

52.b3 The pawn moves from b2 to b3. Recorded reply: **52...h6**.

53.f3 The pawn moves from f2 to f3.

At the end, nominal material is White 4 / Black 3 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +3. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer: +3:** the balance goes from -2 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Same-colored and opposite-colored bishop endings have different tendencies, but neither label replaces calculation of the actual pawn races.

WHAT THIS POSITION TEACHES

A bishop ending depends on diagonal access, pawn color, king activity, and promotion squares. Tactics can arise when a bishop must perform two defensive jobs.

HOW TO LOOK

Trace the bishop's line to each target and identify pawns that can break its coverage or force it to move.

The defending king is on e5. Geometrically undefended: bishop on a7. Check for tactical protection.
