

Bishop-ending decisions: Black, move 54

Bishop-ending decisions

Black to move

Previous move: 54.Bc1. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

54...a3 55. Bxa3 Kxa3 56. Kd5 Kb4

54...a3 The pawn moves from a4 to a3. Recorded reply: **55.Bxa3**.

55...Kxa3 The king captures the bishop on a3. Recorded reply: **56.Kd5**.

56...Kb4 The king moves from a3 to b4.

At the end, nominal material is White 0 / Black 1 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +2: the balance goes from -1 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Same-colored and opposite-colored bishop endings have different tendencies, but neither label replaces calculation of the actual pawn races.

WHAT THIS POSITION TEACHES

A bishop ending depends on diagonal access, pawn color, king activity, and promotion squares. Tactics can arise when a bishop must perform two defensive jobs.

HOW TO LOOK

Trace the bishop's line to each target and identify pawns that can break its coverage or force it to move.

The defending king is on e5. Geometrically undefended: bishop on c1. Check for tactical protection.
