

Bishop-ending decisions: White, move 42

Bishop-ending decisions

White to move

Previous move: 41...gxf6. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

42. gxh6 Kf7 43. h7 Kg7 44. exf6+

42.gxh6 The pawn captures the pawn on h6. Recorded reply: **42...Kf7**.

43.h7 The pawn moves from h6 to h7. Recorded reply: **43...Kg7**.

44.exf6+ Check restricts Black to 5 legal replies here. The move also takes the pawn on f6.

At the end, nominal material is White 8 / Black 6 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +2. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +2: the balance goes from +0 to +2. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Same-colored and opposite-colored bishop endings have different tendencies, but neither label replaces calculation of the actual pawn races.

WHAT THIS POSITION TEACHES

A bishop ending depends on diagonal access, pawn color, king activity, and promotion squares. Tactics can arise when a bishop must perform two defensive jobs.

HOW TO LOOK

Trace the bishop's line to each target and identify pawns that can break its coverage or force it to move.

The defending king is on e7. Look for a defender that can be displaced or overloaded.
