

Knight-ending routes: White, move 46

Knight-ending routes

White to move

Previous move: 45...Nf5. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

46. Nxf5 exf5 47. Kf4 Ke6 48. g6 Ke7 49. Kxf5

46.Nxf5 The knight captures the knight on f5. Recorded reply: **46...exf5**.

47.Kf4 The king moves from f3 to f4. Recorded reply: **47...Ke6**.

48.g6 The pawn moves from g5 to g6. Recorded reply: **48...Ke7**.

49.Kxf5 The king captures the pawn on f5.

At the end, nominal material is White 4 / Black 3 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +1. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer: +1:** the balance goes from +0 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

A knight changes color with every move and may need a detour. Check the route square by square before trusting a race estimate.

WHAT THIS POSITION TEACHES

Knight endings reward exact route calculation. Forks can change a pawn race, while a distant passer may outrun the knight's short-range movement.

HOW TO LOOK

Map the knight's checking moves and its route to the critical blockade square. Count moves rather than judging distance by appearance.

The defending king is on d7. Look for a defender that can be displaced or overloaded.
