

Queen-and-rook endings: Black, move 35

Queen-and-rook endings

Black to move

Previous move: 35.Rgxg7+. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

35...Qxg7 36. Rxg7+ Kxg7

35...Qxg7 The queen captures the rook on g7. Recorded reply: **36.Rxg7+**.

36...Kxg7 The king captures the rook on g7.

At the end, nominal material is White 2 / Black 3 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +1. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer: +1:** the balance goes from +0 to +1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not activate the king as casually as in a pure pawn ending. The remaining heavy pieces can still generate a mating net.

WHAT THIS POSITION TEACHES

When queens and rooks remain, mating threats coexist with endgame pawn races. Coordination and king shelter remain essential even on a sparse board.

HOW TO LOOK

Look for heavy-piece batteries, skewers, and checks that force a defender away from a promotion square or pawn.

The defending king is on b1. Look for a defender that can be displaced or overloaded.
