

Queen-and-rook endings: White, move 42

Queen-and-rook endings

White to move

Previous move: 41...Rxc2+. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

42. Qxg2 Rxc2+ 43. Kxc2

42.Qxg2 The queen captures the rook on g2. Recorded reply: **42...Rxc2+**.

43.Kxc2 The king captures the rook on c2.

At the end, nominal material is White 4 / Black 4 (P=1, N/B=3, R=5, Q=9). Over this line, White's balance changes by +1. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does White's material balance change over the complete line? **Answer:** +1: the balance goes from -1 to +0. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not activate the king as casually as in a pure pawn ending. The remaining heavy pieces can still generate a mating net.

WHAT THIS POSITION TEACHES

When queens and rooks remain, mating threats coexist with endgame pawn races. Coordination and king shelter remain essential even on a sparse board.

HOW TO LOOK

Look for heavy-piece batteries, skewers, and checks that force a defender away from a promotion square or pawn.

The defending king is on f8. Look for a defender that can be displaced or overloaded.
