

Queen-and-rook endings: Black, move 34

Queen-and-rook endings

Black to move

Previous move: 34.Rxf7. Gold borders mark its start and finish.

WORKED CONTINUATION - COVER THIS SECTION FIRST

34...Qe1+ 35. Ka2 Qe6+

34...Qe1+ Check restricts White to 2 legal replies here. Recorded reply: **35.Ka2**.

35...Qe6+ Check restricts White to 6 legal replies here. From e6 it attacks king on a2 and rook on f7.

At the end, nominal material is White 14 / Black 13 (P=1, N/B=3, R=5, Q=9). Over this line, Black's balance changes by +0. Activity and king safety still affect the evaluation.

CHECKPOINT

Using P=1, N/B=3, R=5, Q=9, how much does Black's material balance change over the complete line? **Answer:** +0: the balance goes from -1 to -1. Count promotions and every recapture, not just the first gain.

CARRY THE IDEA INTO YOUR GAMES

Do not activate the king as casually as in a pure pawn ending. The remaining heavy pieces can still generate a mating net.

WHAT THIS POSITION TEACHES

When queens and rooks remain, mating threats coexist with endgame pawn races. Coordination and king shelter remain essential even on a sparse board.

HOW TO LOOK

Look for heavy-piece batteries, skewers, and checks that force a defender away from a promotion square or pawn.

The defending king is on b1. Geometrically undefended: rook on f7 and rook on d4. Check for tactical protection.
