WORKED CONTINUATION - COVER THIS SECTION FIRST

54...Rc1#

54...Rc1# Mate: rook on c1 gives check; White has no legal reply.

The line ends in checkmate against the king on e1. Material gain is unnecessary once no legal defense exists.

CHECKPOINT

Which piece delivers the final check, and why can the defender not continue? **Answer:** Rook on c1. The king is in check and the position has zero legal replies.

CARRY THE IDEA INTO YOUR GAMES

Do not activate the king as casually as in a pure pawn ending. The remaining heavy pieces can still generate a mating net.

WHAT THIS POSITION TEACHES

When queens and rooks remain, mating threats coexist with endgame pawn races. Coordination and king shelter remain essential even on a sparse board.

HOW TO LOOK

Look for heavy-piece batteries, skewers, and checks that force a defender away from a promotion square or pawn.

The defending king is on e1. Geometrically undefended: rook on f7. Check for tactical protection.
